"A novel of more than ordinary shiftly and interest, and one of the best of the kind that has been issued for a long time. It far more interestic st. and inculates much better principles of morality, than the sickly Abolition tales of some of our American writers."

From The Using Many 1.

"The announcement of a new novel by Miss Warner will de-light all the admirers of the "Wide, Wide World," and of the most popular novels by an American author."

"The same quiet soulight, with its dim and uncertain shad-ows, penetrates the heart, and kindles anew the kindlicet feel-ings of our nature. No one can srise from its pergual without feeling, for the moment, a wiser and a better bring, and that he has had the presence of an angel, although he knew it not."

In looking over the proper places reliable. In looking over the finds the Time Tables for the Railroads named below have not been changed, are many of them a year old, and generally, as they have been copied from OINSMORE'S GUIDE for last May. He considers it to be his analy to notify the public of this fact, and at the same time to state that the CORRENT TABLES may all be found in his own Guide. Unexplained, such a dread-ful state of things misch bring all Railroad Guides into discrepance. He would also state that the Time Tables of the roads marked (*) do not appear in APPLETON'S GUIDE, but cannot state the why or wherefore (inquire at Nos. 366 and 348 Broadway). FARM LANDS for SALE.—The ILLINOIS
CENTRAL RAILROAD COMPANY is now prepared to
sell about TWO MILLIONS OF ACRES of

CENTRAL RAILROAD COMPANY is now prepared to sell about TWO MILLIONS OF ACRES of

FAR MING LAND S.,

IN TRACTS OF FORTY ACRES AND UPWARD.

On Long Credits, and at Low Rates of Interest.

These Lands were granted by the Government to sid in the sometruction of this Railroad, and are among the richest and most fertile in the State. They extend with the Road, from Chicago on the north-east to Cairo at the south, and thence to Galona and Dunleith in the extreme morely on and within six miles of, the Road, and none are more than fifteen miles distant from it; hence, ready and cheap facilities are furnished for transporting their products to any of the Eastern or Southern markets. The great increase of population by immigration, &c., and the consequent rapid growth of flourships towns and vileges on the line of the Road and throtchout the State, for inshe a substantial and growing home demand for every kind of farm and garden produce.

In the northern and central parts of the State, prairie lands predominate, interspersed with magnificent groves of oak and other timber; in the southern, the timber is more abandant, and exceedingly valuable.

The soil is a dark, ich mould, from one to five feet in depth, is gently rolling and pecultarly fixed for grazing cattle and sheep, or the cultivation of wheat, Indian corn, etc. The sir is pure and bracing, the clumate more healthy, mild and equation than that of any other part of the Union; while living streams and springs of excellent water abound.

Economy is cultivating and great productiveness are the well known characteristics of Illinois lands. Trees are not required to be cut down, stumps grubbed, or stone placked off, asis generally the case in cultivating new land in the older States. The scale is contracted and service of playing and fencing.

Wheat sown on the newly-turned end is sore to yield very large profits. A man with a plow and two yoke of oxen will break one and a half to two screeper say. Contracts can be made for breaking, ready for corn or wheat, at from \$\

Corn, grain, cattle, etc., will be forwarded at reasonable ra'es to Chicago, for the Eastern, and to Cairo for the Southern market.

Bituminous Coal is extensively mined along the Road, and supplies a cheap and desirable fuel, being furnished at many points at \$1.50 to \$4 per tun. Wood can be had at the same rate per cord. Extensive quarries have been opened in the southern part of the State, near the line of this Road, of Building Stone of excellent quality—such as white and the Laine stone, and white and red Sandetone—which can be had for its the more than the expense of transportation.

The Government lands, in the Land States, having generally been withirswin from market, emigrants from the Eastern States and Europe can be accommodated by this Company with valuable Farms, at the old prices and terms, which, in all probability, will double in value within twelve months.

When those lands are restored to market, persons who think of settling on them, or in Minnesota, should bear in mined that the Lands of this Company, at the prices for which they are sold, are better investments than those in other States or Teritories more remote from market, at Government prices; for the reason that the expense of transporting the products of the latter to market will always be a heavy drawback on them, and ster a few years' entitivation they require manuring, which is not the case with Hinto's lands.

The same remarks hold good in relation to the lands in the Territories of Kanass and Nebrusks; for although season Linds may be found near the water-courses, the distance to smarket is far greater, and every hundred mikes the products of those lands are carried either in wagons, or interrupted water consumnistions increases the expenses of transportation, which must be found near the water-courses, the distance to smarket is far greater, and every hundred mikes the products of those lands are carried either in the reduced price of their producity; and to that extent precisely are the incomes from the farms, and other exists
